About the Vocabulary

The 600 words in each book of this series along with the additional target words presented in the appendices included in the first three books of the series are the most useful words in English. They were found by analysis of a collection of English course books from various levels in the primary, secondary and tertiary school systems. The words included in this series were chosen because they occurred many times in different levels of these materials. Because of the way that they were chosen, these words have the following characteristics:

- They are useful in both spoken and written English. No matter what English course you are studying, the words in these books will be of value to you.
- Each word in these books is a high-frequency word. This means that the effort in learning the words is well repaid by the number of times learners have a chance to encounter or use them.
- These books as a whole cover a large proportion of the words in any spoken or written text. They cover at least 80% of the words in newspapers and academic texts, and at least 90% of the words in novels. They also cover at least 90% of the words in conversation.

About the Books

The activities in these books are specially designed to make use of important learning conditions. Firstly, the words are introduced using sentence definitions and an example sentence. The activities that follow in the units encourage learners to recall the meanings and forms of the words. Some activities also make the learners think about the meaning of the words in the context of a sentence—a sentence different from the sentences that occurred in the introduction of the words. Moreover, each unit ends with a story containing the target words. While reading the story, the learners have to recall the meanings of the words and suit them to the context of the story. Such activities help learners develop a better understanding of a common meaning for a given word which fits the different uses.

Illustrations for each target word are provided to help learners visualize the word as it is being used in the example sentence. These word/image associations aim to help students grasp the meaning of the word as well as recall the word later.

It should be noted that words have more than one grammatical category. However, this series focuses on the word's most common form. This is mentioned to remind learners that just because a word is labeled and utilized as a noun in this series does not mean that it can never be used in another form such as an adjective. This series has simply focused on the word in the form that it is most likely to be expressed.

Supporting Learning with Outside Activities

A well-balanced language course provides four major opportunities for learning: learning through input, learning through output, deliberate learning, and fluency development. The highly structured activities in these books support all four types of learning opportunities. In addition, learning can further be supported through the following activities:

- 1 Have students create vocabulary cards with one word from the unit on one side of the card and the translation of the word in the student's first language on the other side. Students should use the cards for study in free moments during the day. Over several weeks, students will find that quick repeated studying for brief periods of time is more effective than studying for hours at one sitting.
- 2 Assign graded readers at students' appropriate levels. Reading such books provides both enjoyment as well as meaning-focused input which will help the words stick in students' memory.
- 3 Practice reading fluency to promote faster recall of word meaning for both sight recognition and usage. Compass Publishing's *Reading for Speed and Fluency* is a good resource for reading fluency material.
- 4 Include listening, speaking, and writing activities in classes. Reinforcement of the high-frequency vocabulary presented in this series is important across all the four language skills.

"You?" Theseus yelled. "He won't choose you!"

Theseus made a **sudden** move to take out his sword. Then Pelias did the same.

"Your brothers fight too much," the king told him. "I must protect my kingdom from all harm. They'll divide it between them. The people won't know what to do. There'll be war. I can't allow either of them to be king. Therefore, I'm making you king. Your kindness has always made you special. It's the difference between you and your brothers. You can bring peace. They can't."

Then the king died. Theseus and Pelias heard that their youngest brother was king. They were surprised. They realized that their fighting was wrong. It had kept them from saying goodbye to their father. They agreed to have Jason as their king. He was the best choice.

As soon as she kissed Henry, he began to change. His pig nose turned into a man's nose. His horns and green hair went away. Standing in front of her was the man Rose had dreamt about. Cats and Secrets

In English, there is a **common idiom** "let the cat out of the bag." It means to tell a secret. But where did this idiom start?

It came from a **section** of England. Long ago, people there went from town to town to sell things like vegetables, clothes, and pigs. They had strong **beliefs** about **honesty**. They didn't like lying. One day, a man went to the section's **center** to sell things.

"I have a baby pig for sale! It won't **cost** much," he said. He held the animal **above** his head. His style was **different** from honest people's style. He was a **master** of tricking people and lying.

A woman named Beth **scanned** his pig. He offered her the pig for one gold coin. That was a very small **amount**. Beth gave him the coin. He put it in his pocket. He walked **ahead** of Beth to get the pig.

He gave her a closed bag and said, "Here's your pig." He then left very quickly.

Beth looked at the bag's **surface**. It was moving. She opened it to let the pig out. A cat was **inside**! "He tricked me! That isn't **proper**," she said.

Later, the man returned to trick more people. Beth saw him and the **memory** of the cat came back. She told her friends. They stopped him. But no one knew what to do next.

Someone said, "We need an **independent** and fair person to decide that." They went to the judge. Beth told him about the cat in the bag.

The judge asked, "Is there **evidence**? Can you **demonstrate** how he did it?"

"Look in his bag," said Beth. She opened it and let a cat out of the bag. They learned the man's secret, and he went to jail.

That's how the idiom "let the cat out of the bag" came to mean to tell a secret.
